ABRIVAL OF THE REVENUE UUTTER COM. PERRY.

Chief Justice Chase and General F. E. Spinner on Board.

Captain Whittaker's novel-looking craft, the cutter Commodore Perry, arrived at this port from Buffalo at three o'clock yesterday morning. She left the latter place at half-past eight o'clock Saturday morning. She ran up about ten miles this side of Erie, when, finding her supply of ecal was inadequate, she ran back to that port and was detained there some six hours. Invitations had been sent to the following centlemen to take passage on the Commo dore : Hons. Salmon P. Chase, Horace Greeley, Anson Burlingame, Hiram Walbridge, John W. Forney, Hannibal Hamlin, Simeon Draper, W. Whiting, Generals John

C. Fremont, F. E. Spinner and Gaines, Captains Wm. H. Webb, W. Story, and Messrs. C. K. Garrison, Thomas A. Jenks, John L. Newbold, and others. The actual party consists of about twenty ludies and gentlemen. Among these are Chief Justice Chase, General F. E. Spinner and four ladies, Hon. G. W. Wright, of New Horace Greeley, Anson Burlingame, Hiram Walbridge and John L. Newbold will go

back to Buffalo on the Perry, on Friday or the Perry, and run up to Detroit in the evening. The cutter will return on Wedneeday or Thursday, to give Mr. Chase an

purs renssed since her visit to this port, and certain impediments have been removed. The chief difficulty she experienced be-tore, we are informed, was in her too finely meshed grates. The coal lodged and choked them up, shutting off the draft. This is the reason assigned for the passing, three times, f the screw-steamer Atlantic, in their race o Buffalo. The grates choked up, when the oal had to be hauled out, and fire started sgain. This happened three times during the race, and each time the propeller shot shead, only to be overtaken by the Commodore. We were told by a responsible gentleman on board, that the Perry passed the Atlantic the last time, about two hours and half before reaching Buffalo, and best her in by a distance of seven miles.

There will be another trial of her speed at Detroit in the course of two or three days. We understand that the government has already accepted this cutter, and that she will seen be put into active service, being already fitted out with guns, complement of men, &c., although her officers have not yet been assigned.

We gave a full description of this singular-looking craft when she was here before, and will not now repeat.

of such Christian labors as are now in use. What the result of this conference may be we do not pretend to forecast, but we can assure our readers that it is moved by sincere and Christian spirit of well-doing, and can not but benefit the city by its presence, and those most who place them

selves most within its influence.

The business meetings will be held morning and afternoon, in the Stone Church, beginning at ten o'clock on Wednesday, and open to the public. Special meetings for the public, with addresses by men whom it will be a pleasure to hear, will be held on Wednesday and Thursday evenings, on Wednesday probably in the Stone Church, and on Thursday in the Second Presbyterian Church.

To morrow morning they will be visited by the Reception Committee appointed by the Board of Trade, who will have carriages in waiting, and e cort them to the various places of business throughout the city, which will have interest for the guests.

We do not think it quite in taste to give publicity to the programme which has been decided upon, since they are not the guests of the city, but a mere private party. They will be received on 'Change at two clock to morrow afternoon, when they will be presented to the Board of Trade and citizens generally. Short speeches of recognition, and responses, will be made. An hour's ride on the lake is also proposed. In the evening a complimentary public dinner will be given them at the Weddell House, which will conclude the entertainment of the distinguished guests.

LECTURE BY MIRS EVANS TO RIGHT .- MISS Susannah Evans, the young but already elebrated lecturer on temperance, will deliver a lecture on her favorite subject tonight, in Brainard's Hall. We have never had the privilege of hearing her, but her fame has gone before, and there need be no doubt entertained that she will make a very interesting talk. She is known to address her remarks more particularly to young men, and most especially to that class of them known as "fast." We are assured by the press everywhere, that her treatment of the subject, which is generally considered heavy and dull, is very sprightly and piquant. We commend her to Cleveland audiences (for she speaks twice here, tonight and to-morrow evening), and especially to that quite large fraternity, whose

A LETTER FROM THE JAIL, Alleged Conversion of a Criminal

CLEVELAND, September 23, 1865. EDITORS LEADER: Believing that the following letter will interest Christians, and speak for itself with regard to its sincarity, I send it for publication, hoping that it will lead many to pray that God's spirit will work deeply in the hearts of the prisoners of our county jail, and that many souls may be saved.

It was written by one who was taken to the penitentiary on Monday morning, after he was locked in his cell the night before he went away, and left for one who has been attending the meetings which have for some time been held in the jall. The writer is a young man some twenty-

two or three years of age, we should judges who left his parents and came to this country when he was fifteen years old. He was thrown at once among evil associations, and has been continually surrounded by them to the present time, and says that from the time he landed in this country he never had one kind word spoken to him, to lead him to do better, or one word of advice, or York, and others of lesser note. Hons. caution sgainst doing wrong, until he was confined in the jail. He was one of the first to come forward

for a Bible class when it was organized, and was from that time till he left a most earn-Saturday next.

Was from that time till he left a most earnest and faithful member. He had testified guest of Hon. Richard C. Parsons. He attended divine service at the Stone Church in the morning. The party, consisting of his conscience soon became awakened, ustice Chase, Hon. Auson Burlingame, and long and deep was the struggle Gen. F. E. Spinner and Isdies, will visit between temptation and the convictions of Sandusky and the Islands to-day, on board duty; but right conquered; the fountains of his heart were broken up and, sobbing like a child, he said to another prisoner l cannot go into court and perjure myself opportunity of attending the great religious and lose my soul, and I am not going to convention which will then be in session | do it. He told the truth, and from that time there was a great change in him, and to do right. He does not feel that he is a Christian yet, but we think there is great reason to hope that he will soon be one and to believe that when he comes out into the world, he will come as a reformed man.

This is the letter: CLEVELAND JAIL, Sept. 17.

I cannot leave without offering you my sincere thanks for the inestimable kindness you have done me, greater than any one clas has ever done. You have awakened else has ever done. You have awakened me to a sense of my need of a Savior; your counsels have led me to seek the salvation of my soul; your encouragement has given me atrength to continue in my efforts to overcome the evil propensities of my nature, and I feel a hopeful assurance that I am pursuing the surest path to peace and joy in the promises of God. In a strange country, with few friends, I have been too easily led away from had to worse, until I have now to suffer the just penalty of the law. One year will not be long in passing if my health is spared, but how much longer it would have seemed, how much larder my punishment would be, but for the inward satisfaction that God is with me; that this is His obsatisement to bring me to Himward satisfaction that God is with me; that this is His chassisement to bring me to Him-self; that if I still trust in Him, He will, through the mediation of His blessed Son, bring me to true repentance, to receive the blessing of the Holy Spirit, whose mighty inspiration shall cleaned me from sin, to make me happy in the service of the Most THE RELIGIOUS CONVENTION.—There is a prospect that the convention to open in this city on Wednesday next, will bring together a somewhat numerous and influential body of clergymen and laymen from all parts of the country. Delegates are respected on their way from St. Lenis. Mil. tion, to be earnest in such that in their professions, watchful of temptation, their professions watchful of temptation, constant in endeavors to do right, trusting in Him who can alone give strength in time of need, to make us more than conquerors and their conquerors and their conquerors are the conductive to the conductive their conductive t of need, to make us more than conquerors over the temptations of the world; "being made free from sin to become the servants of God we will bear fruit unto boliness that

Trusting you will still continue to exert your usefulness in the good and noble work you have so well begun, that blessings may attend your every endeavor in such a righteens cause, and that success may crown your efforts will be the constant prayer of our end may be life everlasting.

Yours, most respectfully, We do not give names as this is pubished without consulting the writer. Shall we not pray with more faith, believing that God can and will convert men in prison as well as anywhere else?

BODT RECOVERED.-The body of an unknown man was seen floating in the Cuyahoga river Saturday morning, and was picked up opposite St. Ctall street, by hands on a tug. It was in a quite advanced state of decomposition, and yet not so far gone as to preclude an examination which furnished no evidence that violence had been used on the man. The body was renoved to the establishment of undertaker

Howland. The following description of the person has been furnished by the Coroner: He was about fifty years of age; dark hair mixed with gray; long whiskers, of reddish hue, which covered the whole face; black broadcloth coat, black satin vest figured, brown panis, white cotton shirt and calf boots.

The Coroner investigated the matter Saturday afternoon, but the examination threw no light upon the occasion or circumstances of the death. The jury, however, became the hotel, and have a night of uninterrupted satisfied that no violence had been done the man, as there were no marks on the person, and there was some money in his peckets. They came to the conclusion that he must have fallen into the river by accident.

TRIAL OF THE SALMON P. CHASE -The New York Berald, of Saturday, gives an account of the trip, on Friday, of the above named cutter, from Jersey City. She is one of the six revenue cutters ordered to be built to prevent smuggling on Lakes Ontario, Eric and Superior. These six cutters are constructed on one and the same pattern. "Salmon" is, therefore, one of a litter of six, and claims blood relation with "Wm. Pitt Fessenden" and "John Sherman."

The trial trip was perfectly satisfactory. Her maximum speed was nineteen miles per hour. Another of the New York papers says that she is the first completed of six cutters. But it happens that Peck & Kirby, of this city, come out ahead of all the other contractors by two full weeks, and have built two of the six boats at that

NOVEL LECTURE .- Mong Shaw Loo, a native of Birmah, and a convert; to Christianity and a graduate from the University at Lewisburgh, Pa., will deliver his highly interesting and amusing lecture on the manners, customs, religion, &c., of his countrymen, this evening, in the First Baptist Church. He will be dressed in native contume, and will give a clearer idea of Asiatic habits and customs than can be gained from any written work. He expects coon to return to his own people, and is now returning for the purpose of securing means to enable him to take a course of medical lectures in this

city during the approaching winter. At the close of the lecture a collection will be IMPORTANT TO VEHERL CAPTAINS -The Detroit Tribune says the wrecking steamer Magnet, Captain J. P. Hodges, while on a of a large spar some thirty feet in length, and may be seen a half mile distant in the

TOOK ANOTHER ROUTE.-Contrary to ex pectation the Chic cavalry regiment which according to appouncement, was to have passed through this city yesterday, on its way from New York to Columbus, took another route, and thus avoided the Soldiers' Home in this city. The ladies of that institution, with characteristic promptness, or's jury will meet to-day, and will prob- dependence, Northfield, Orange and Cha- had made preparations to receive the returning boys.

GRAPH .- Mr. J. F. Ryder, the enterprising

and unsurpassed artist of this city, repaired to Meadville, Pa., on the arrival there of the party of heavy capitalists who are visiting their railroad enterprise in this country, and secured a capital photograph of the listinguished group. A copy was kindly urnished us several days ago, an acknowledgment of the receipt of which we have by mere inadvertence failed to make. The likeness is excellent, as those who have seen the shadow will be able to testify tomorrow on the arrival here of the same party. We notice in the picture, the familiar faces of ex-Gov. Tod, Gen. Schenck

and others. Denavior To-Niggr .- A donation for the penefit of Rev. J. A. Warren will be given this evening in the A. M. E. Church on Ohio st. not. Rev. J. W. Lequen, the great Underground Railroad King, will address the sudience; Prof. A. M. Green will entertain them with something in the paporama line, while Misses Alice Sherman and Hattie Barry are announced to sing several choice heroic songs. The occasion will be one of great interest, no doubt, and we trust that Rev. Mr. Warren may find the donation a very weighty and substantial one.

ACADEMY OF MUSIC .- We have only space, this morning, to announce briefly the sppearance, at the Academy of Music to-night, of those great Cleveland favorites, Mr. C. W. Couldock and daughter. To the Cleveland public they need no introduction and no word of recommendation. They appear this evening in a play entirely new to our citicens, "Old Phil's Birthday," and we doubt not will be received with a most hearty welcome. The entertainment will conclude with the farce of "Jones' Baby."

RAIN.-Father Pluvius visited us yestererday, finding us lolling, panting, fainting, alled around soon after dinner, in the guise of a delightful and refreshing shower. It was not a modern fashionable call, but a right good old-fashioned visit. Like our sensible maternal ancestors, he spent the afternoon, staid to tea, and prolonged his visit into the seasonable hours of the night.

New Music - We have received from Mesars. Root & Cady, music publishers, No. 67 Washington street, Chicago, the following new pieces of music: "Good Bye! Old Glory," words by L. J. Bates, Esq., music by Geo. F. Root; "North and South," words by Beulah Wynne, music by Geo. F. Root; and "The Ship that Never Beturned," words and music by Henry C. Work.

GEARGA COUNTY FAIR .- The Gosuga County Agricultural Fair has just been held at Burton. The attendance was not so large as in some former years, but the exhibition, especially of stock, was unusually meritorious. The Hell was well filled, and appeared much as it did at the great Pairs before the war.

Roll or Hozon .- We have received from Quartermaster General Meigs, the "Roll of Honor," which contains the names of soldiers who died in defense of the American Union, interred in the national cemeteries at Washington, D. C., from August 3, 1861, to June 30, 1865.

ARRIVAL OF HON. JAMES MONROE.-Hon. es Monroe, of Oberlin, U. S. Consul at Rio Janeiro, passed through this city Friday evening, on his way home. He will remain in Oberlin two or three months, and then return to the duties of his posttion. He will be warmly welcomed by hosts of admiring friends.
